

2005 KANSAS ACTUARIAL DOCUMENTS CHANGES 11/30 FILING

EXPANSION: Silage Sorghum (0059) Indexed APH (96) has been added in thirty-seven (37) counties.

Cotton (0021) APH (90) and CRC (44) have been added to Edwards (047) County.

Corn (0041) GRP (12) has been added to the following counties: Atchison (005), Finney (055), Ford (057), Grant (067), Gray (069), Haskell (081), Jefferson (087), Kearny (093), Republic (157), Shawnee (177), Sheridan (179), Sherman (181), Stanton (187), Thomas (193) and Wallace (199).

The addition of GRIP (73) is pending for all counties with GRP (12) Corn (0041), Grain Sorghum (0051) and Soybeans (0081).

DELETIONS: N/A

DATES: N/A

STATEMENTS: The “double crop” statement was revised to clarify that coverage on the applicable crops is not available on acreage following a perennial hay crop that has been harvested, as well as a crop that has reached the “heading stage”. This change affects Non-Irrigated practices for Corn (0041), Cotton (0021), Grain Sorghum (0051), Silage Sorghum (0059), Soybeans (0081) and Sunflowers (0078). The new double crop statement was added to Millet (0017) and is also included on Silage Sorghum (0059).

The statement related to organic crop APH databases has been revised for all applicable crops.

Adjustments have been made to discount factors found within the Quality Statements for Corn (0041), Cotton (0021), Grain Sorghum (0051), Soybeans (0081) and Sunflowers (0078).

The CAT definition has been deleted from the GRP (12) Special Provisions of Insurance. The definition is now included within the 2005 GRP (12) Basic Provisions.

PRACTICES/TYPES: N/A

MAPS/SUPPLEMENTS: Refer to attached Summary of Change Log. All fixed and add-on rates shown on the FCI-33 Supplements have been converted to reflect the 65% coverage level rate.

TRANSITIONAL YIELDS: Transitional yields have been updated for the following crops: Corn (0041), Cotton (0021), Grain Sorghum (0051), Millet (0017), Popcorn (0043) and Sunflowers (0078).

OTHER: The Coverage Level shown on the FCI-35 for reference and fixed rates has been converted from 75% to 65%. This conversion will also change add-on high risk rates and options.

Reference rates, fixed rates, reference yields and coverage level differentials have been updated for Cotton (0021), Grain Sorghum (0051) and Sunflowers (0078).

Reference rates, fixed rates and reference yields have been updated for Millet (0017).

An Organic Certified and Transitional Rate Factor of 1.05 has been added for all crops. See the FCI-35.

NOTE: *This is not an official document. For all official changes, refer to the 2005 Crop Year State Summary of Changes that will be issued by the Actuarial Division.*
